maintenance of, during wartime, 739
duties of water works man regarding, 742
- District of Columbia; main rehabilitation by cleaning and cement lining in, 199
- Dry cells; apparatus for recharging of, 417

E

- Electrical currents; stray; problems with, water works industry's attitude on, 1298
- Electrical supplies; interruptions of, examples of, 41
- Electrodes; horizontal; advantages and disadvantages of, 253, 254
vertical; advantages and disadvantages of, 255
- Equipment; operation and maintenance of, 1151, 1300
sales engineers' viewpoint on tendering for, 1289

F

- Federal Communications Commission; May 25, 1945, report of radio allocations by, 638
- Feedwater; boiler; treatment of, 644
- Filter plants; rehabilitation of, 269
- Filters; future practice in design and construction of, 450
maintenance of, 1301
- Financing; municipal water works; in Maryland, 863
- Flood control; dangers of, 345
- Florida; southern; salt water encroachment in, 526
- Flotation; water purification by, 302
- Flow analysis; distribution system; methods of, at Los Angeles, 379
- Fouling; caused by iron bacteria and non-specific bacteria in iron-bearing water, 965, 973, 1173

G

- Geist Reservoir; design and construction of, 1318
- Geology; ground water; in Louisville, Ky., area, 544
in southern Florida, 527
relation of, to ground water, in Canada, 84
- Green River watershed; relation of runoff and water quality to land and forest use in, 21

Ground water; conservation of, at Colorado, 291
 at Louisville, Ky., 543
 at Sparrows Point, Md., 289
 interrelationship of, with surface water, 605
 investigations of, by Geological Survey of Canada, 86
 in North Carolina, 155
 in Pennsylvania, 162
 natural fluctuations of, interpretation of, 633

 experiences along New Jersey shore, 516
 experiences in Nassau County, 512
 Hydrants; installation of, 403
 maintenance of, 1302
 Hydraulics; exposition of Bernoulli theorem of, 214

I

Institute, W.Va.; water treatment at, 209
 Interconnections; American Water Works & Electric Company's supplement to rules and regulations covering, 422
 Ion-exchange materials; application of, to water supplies, 1211
 Iron; effect of bacteria on, in water, 963
 problems with, in deep well supplies, 1173

J

Jackson, Miss.; postwar program for, 724
 Jar tests; fundamental technics of, 1207
 Joints; packing for, methods of, to prevent contamination of mains, 47

K

Kansas; appropriation of water for beneficial purposes in, 601

L

Laboratory; chemical; problems solved by, 1144
 Laboratory practice; trend toward physical methods of analysis in, 985
 La Verne, Calif.; softening plant experiences at, 482
 Law; *see also* Legislation
 application of; to water-borne disease cases caused by negligence, 260
 common; change from, in Kansas, 613
 Kansas; 1945; re appropriation of water, 626
 New Jersey; relating to water supply, 457
 Lead; determination of, a photometric method for, 207
 Leakage; location and elimination of, 1148, 1191
 Legislation; pension and retirement; committee report on, 1119
 Liability; *see* Law
 Lining; cement; in District of Columbia, 199
 in New Jersey, 196
 modern practices in, 189
 Licensing; *see also* Certification
 advantages of, in Indiana, 132, 135
 program for, in Arkansas, 127
